NOTIFICATION

RECRUITMENT OF IT PROFESSIONALS ON CONTRACT BASIS FOR IT DEPARTMENT

This has reference to the advertisement dated 08.12.2021 in leading newspaper and detailed advertisement & notification on the Bank's website *inter-alia* inviting applications for the following 6 positions on contractual basis:

Sl.	Position	Vacancies
1	Cloud Engineer	2
2	Application Architect	2
3	Enterprise Architect	2
4	Infrastructure Architect	2
5	Integration Expert	2
6	Technology Architect	2

It has been decided to re-open the application window from 04.10.2022 up to 23:59 hours on 24.10.2022.

The cut-off date for meeting the eligibility criteria is revised to 01.10.2022. All other terms & conditions including the eligibility criteria as prescribed in the detailed advertisement & notification dated 08.12.2021 will remain the same. Detailed advertisement & notification for the same has been appended below for ready reference.

Bank invites applications from qualified and experienced professionals for the aforesaid positions. Candidates who have applied earlier for the said positions, need not apply again.

Decision of the Bank in all matters pertaining to selection process shall be final and binding.

Place: Mumbai   **Chief General Manager (HRM)**
Date: 04.10.2022

Position	Cloud Engineer
Educational Qualification	B.E./ B.Tech. in Computer Science or Information Technology
Minimum Experience	Minimum 10 years of Technical and IT experience out of which at least 5 years' experience in the field of cloud computing.
CTC offered	Remuneration will be offered based on candidate's qualifications, experience, overall suitability, last drawn salary of the candidate and market benchmarks for the respective posts, and shall not be a limiting factor for suitable candidates.
Location of posting	The tentative place of posting is Mumbai/Hyderabad. However, the posting may be subject to change/modification depending on Bank's requirement from time to time and the selected candidate is liable for transfer/posting anywhere in India.
Nature of Engagement	Contractual Engagement will be for a period of 3 years, with periodic performance review. The term of engagement may be extended at the option of the Bank.
Age	Minimum Age – 32 years & Maximum Age – 45 years
Role & Responsibilities (indicative & not limiting)	• Design, implement and manage secure, scalable, and reliable cloud infrastructure environments. • Propose and implement cloud infrastructure transformation to modern technologies and methods used to run micro services application architectures • Building, troubleshooting, and optimizing container-based cloud infrastructure • Ensure operational readiness for launching secure and scalable workloads into public and hybrid cloud environments • Validate existing infrastructure security, performance and availability and make recommendations for improvements and optimization • Ensure Backups, resilience, and business continuity • Implement infrastructure best practices
Job specific skills	• Strong consulting experience with large scale migrations to Cloud Providers such as Azure, AWS, Google, IBM • Knowledge of infrastructure solutions, platform migration, system security, and enterprise directories. • Deep understanding of cloud computing & in one or more of the following domains: Core Platform: Compute (Iaas & Paas), Storage, Networking • Monitoring, alerting, and logging tools, and build/release processes highly preferred • Demonstrated experience with DevOps, including automation/infrastructure as code. • Strong knowledge in authentication patterns (MFA) • Experience with Continuous Integration Delivery models • Strong knowledge of network topologies and technologies with emphasis on network gateway devices (ingress/egress)
To Apply	Interested candidates are advised to visit the Bank's website www.bankofbaroda.co.in (Career Page→ Current Opportunities section) for further details or you may follow the following link for applying for the said post: The last date of submission of the application is **24.10.2022 (23:59 hours).**
Eligibility Criteria to be met as on	01.10.2022
All other terms & conditions shall be as per advertisement dated 08.12.2021	

Position	Application Architect
Educational Qualification	B.E./ B.Tech. in Computer Science or Information Technology
Minimum Experience	Minimum 10 years of Technical and IT experience out of which at least 5 years' experience as Application Architect. • Experience as Application Architect in Alternate Delivery Channels (eg: CBS, LOS, LMS etc.) will be preferred. • Experience in AGILE Methodology/Core JAVA/LINUX/UNIX Server preferred
CTC offered	Remuneration will be offered based on candidate's qualifications, experience, overall suitability, last drawn salary of the candidate and market benchmarks for the respective posts, and shall not be a limiting factor for suitable candidates.
Location of posting	The tentative place of posting is Mumbai/Hyderabad. However, the posting may be subject to change/modification depending on Bank's requirement from time to time and the selected candidate is liable for transfer/posting anywhere in India.
Nature of Engagement	Contractual Engagement will be for a period of 3 years, with periodic performance review. The term of engagement may be extended at the option of the Bank.
Age	Minimum Age – 32 years & Maximum Age – 45 years
Role & Responsibilities (indicative & not limiting)	• Design and validate application architecture design and other technology architecture • Estimate design efforts, define detailed schedules, evaluate technologies, develop prototypes, architect design • Change application Architecture as per business need and Technology changes • Understand and apply architect principles, processes, their standards and guidelines • Understand, document, and monitor application layering dependencies (User-Interface, Deployment, Public Interface, Application Domain, Application Infrastructure, Technical Frameworks, and Platforms) and application component dependencies. • Document and maintain context diagrams, functional architectures, data architecture, and messaging architecture diagrams and descriptions. • Understand and monitor impacts to and dependencies between existing technical and network environments. • Define and direct proof-of-concept tasks for proposed architectural interactions. • Define, plan, propose, and select enabling technologies to support packaged or custom applications. • Prepare approach papers listing technology options, risks, and impacts of various architectural options for application. • Define data dependencies within, between, and among various applications and application components. • Define and direct coordination among database instances between, and across, various applications and application components. • Document and maintain technical architecture, network architecture, application architecture, and technical application architecture diagrams and descriptions, including releases and versions of software. • Ensure that architectural components optimally address business requirements. • Lead / Participate in technical and infrastructure requirements engineering initiatives. • Coordinate with other architects, project managers, and team leads to ensure the development matches the system model. • Define architecture risk mitigation plans. • Monitor emerging technologies and technical releases from product vendors to evaluate applicability toward current efforts.
Job specific skills	• Experience as Application Architect in Alternate Delivery Channels (eg: CBS, LOS, LMS etc.). • Experience in AGILE Methodology/Core JAVA/LINUX/UNIX Server preferred • Deep understanding of cloud computing & in one or more of the following domains: Core Platform: Compute (Iaas & Paas), Storage, Networking • Monitoring, alerting, and logging tools, and build/release processes highly preferred • Demonstrated experience with DevOps, including automation/infrastructure as code.

	• Strong knowledge in authentication patterns (MFA) • Experience with Continuous Integration Delivery models • Strong knowledge of network topologies and technologies with emphasis on network gateway devices (ingress/egress)
To Apply	Interested candidates are advised to visit the Bank's website www.bankofbaroda.co.in (Career Page→ Current Opportunities section) for further details or you may follow the following link for applying for the said post: The last date of submission of the application is **24.10.2022 (23:59 hours).**
Eligibility Criteria to be met as on	01.10.2022
All other terms & conditions shall be as per advertisement dated 08.12.2021	

Position	Enterprise Architect
Educational Qualification	B.E./ B.Tech. in Computer Science or Information Technology
Minimum Experience	Minimum 10 years of Technical and IT experience out of which at least 5 years' experience in architecting, designing and managing banking platforms
CTC offered	Remuneration will be offered based on candidate's qualifications, experience, overall suitability, last drawn salary of the candidate and market benchmarks for the respective posts, and shall not be a limiting factor for suitable candidates.
Location of posting	The tentative place of posting is Mumbai/Hyderabad. However, the posting may be subject to change/modification depending on Bank's requirement from time to time and the selected candidate is liable for transfer/posting anywhere in India.
Nature of Engagement	Contractual Engagement will be for a period of 3 years, with periodic performance review. The term of engagement may be extended at the option of the Bank.
Age	Minimum Age – 32 years & Maximum Age – 45 years
Role & Responsibilities (indicative & not limiting)	• Set up technical standards and governance structure for the enterprise. • Assist business strategy and accordingly drive technology strategy from an architecture perspective. • To Provide technology architecture expertise and guidance across multiple business divisions & technology domains • Setting up technical standards, formulation of Enterprise Architecture (EA) Governance Framework.13 • Driving technology strategy from an architecture perspective, across a portfolio of applications in the Bank, for resource optimization and Risk mitigation • Translating business requirements into specific system, application or process designs, including working with business personnel and executives to identify functional requirements. • Define/ maintain Target Architectures in Roadmaps. • Lead and/or assist efforts to scope and architect major change programs, leading strategic options analysis & proposing end-to-end solutions & highlighting trade-offs. • Review ongoing designs of major programs to identify strategic opportunities and resolve design issues during delivery. • Identify key technology enablers to optimize IT investment. • Develop highly complex solutions that exemplifies quality optimization regarding reliability, availability, scalability, manageability, flexibility, usability/ reusability and high performance. • Deliver Architecture solutions in a Banking environment at the highest-level technical expertise. • Lead other IT Architects to provide effective consulting/ solutions on complex projects. • Lead multifunctional teams in successful application of methodologies and architecture modelling tools.
Job specific skills	• Strong knowledge of enterprise architecture and design, including architecture frameworks such as TOGAF (TOGAF certification preferred) • Strong knowledge of technologies such as APIs, SOA, programming languages, cloud hosting practices and big data technologies. • Agile/ DevOPs experience and emerging technology trends. • Hands on experience in building enterprise solutions with mature governance processes. • Hands on experience in drawing architectural artefacts with modelling tools. • Good relationship management and communication skills.
To Apply	Interested candidates are advised to visit the Bank's website www.bankofbaroda.co.in (Career Page→ Current Opportunities section) for further details or you may follow the following link for applying for the said post: The last date of submission of the application is **24.10.2022 (23:59 hours).**
Eligibility Criteria to be met as on	01.10.2022
All other terms & conditions shall be as per advertisement dated 08.12.2021	

Position	Technology Architect
Educational Qualification	B.E./ B.Tech. in Computer Science or Information Technology
Minimum Experience	Minimum 10 years of Technical and IT experience out of which at least 5 years' experience in architecting, designing and managing banking platforms
CTC offered	Remuneration will be offered based on candidate's qualifications, experience, overall suitability, last drawn salary of the candidate and market benchmarks for the respective posts, and shall not be a limiting factor for suitable candidates.
Location of posting	The tentative place of posting is Mumbai/Hyderabad. However, the posting may be subject to change/modification depending on Bank's requirement from time to time and the selected candidate is liable for transfer/posting anywhere in India.
Nature of Engagement	Contractual Engagement will be for a period of 3 years, with periodic performance review. The term of engagement may be extended at the option of the Bank.
Age	Minimum Age – 32 years & Maximum Age – 45 years
Role & Responsibilities (indicative & not limiting)	• Assist the development of the overall technology strategy with critical focus on enterprise and platform architecture • Responsible for the design of systems and interfaces both internal and external • Identifying and integrating overall integration points in context of a project as well as other applications in the environment. • Defining guidelines and benchmarks for non-functional requirement considerations during project implementation. • Reviewing architecture and design on various aspects like extensibility, scalability, security, design patterns, user experience, non-functional requirements, etc., against a predefined checklist and ensure that all relevant best practices are followed. • Providing a solution to any issue that is raised during code/design review and justifying the decision taken. • Possessing/acquiring strong troubleshooting skills and being interested in performing troubleshooting of issues in different disparate technologies and environments. • Understanding and relating technology integration scenarios and applying these learnings in complex troubleshooting scenarios.
Job specific skills	• Overall understanding of banking technologies – systems and processes. A track record of having successfully built innovations • Implemented core banking. Delivery channels, payment systems and other digital banking solutions. • Strong knowledge of development environments, middleware components, database and open source technologies • Strong experience in Core Java, Spring, JSF, and Hibernate/Spring Data JPA. • Experience in SOA based architecture, Web Services (Apache CXF/ JAXWS/ JAXRS/ SOAP/ REST). • Experience in multiple application and web servers (JBoss/ Tomcat/ Websphere). • Experience in front-end frameworks (AngularJS/ Backbone/ Knockout/ Handlebar). • Experience in messaging (JMS/WebSphere MQ/Active MQ). • Experience in continuous integration (Jenkins/Sonar/Nexus/PMD). • Hands on experience of RDBMS like SQL Server, Oracle, MySQL, PostgreSQL. • Experience in using profiler tools (JProfiler/JMeter). • A good understanding of UML and design patterns.
To Apply	Interested candidates are advised to visit the Bank's website www.bankofbaroda.co.in (Career Page→ Current Opportunities section) for further details or you may follow the following link for applying for the said post: The last date of submission of the application is **24.10.2022 (23:59 hours).**
Eligibility Criteria to be met as on	01.10.2022
All other terms & conditions shall be as per advertisement dated 08.12.2021	

Position	Infrastructure Architect
Educational Qualification	B.E./ B. Tech. in Computer Science or Information Technology Candidates with Professional certifications on OS (Unix/Linux), Middleware, Storage, Load Balancer will be preferred
Minimum Experience	Minimum 10 years of Technical and IT experience out of which at least 5 years' experience in designing and building large IT infrastructure projects
CTC offered	Remuneration will be offered based on candidate's qualifications, experience, overall suitability, last drawn salary of the candidate and market benchmarks for the respective posts, and shall not be a limiting factor for suitable candidates.
Location of posting	The tentative place of posting is Mumbai/Hyderabad. However, the posting may be subject to change/modification depending on Bank's requirement from time to time and the selected candidate is liable for transfer/posting anywhere in India.
Nature of Engagement	Contractual Engagement will be for a period of 3 years, with periodic performance review. The term of engagement may be extended at the option of the Bank.
Age	Minimum Age – 32 years & Maximum Age – 45 years
Role & Responsibilities (indicative & not limiting)	• Designing, articulating and implementing architectural scalability. • Work in close collaboration with application architect to ensure optimal infrastructure design • Draw a long-term enterprise level IT Infrastructure Plan • Ensure that availability requirement are met in the design • Validate all Infrastructure Changes and obtain necessary approvals from competent authority • Interact with IT Partners, Consultants and internal stakeholders • Evaluate infra technology and industry trends, identify prospective impact on business • Participate to develop and manage ongoing enterprise architecture governance structure on basis of business & IT strategies • Promote organization architecture process and results to business and IT Departments • Lead and direct to prepare governing principles to guide decision making Equivalent to infrastructure architecture • Draw implementation plan for infrastructure architecture on basis of IT strategies and business requirements • Ensure optimal governance structure and comply with activities related to infrastructure architecture adherence • Enforce infrastructure architecture execution as well as ongoing refinement tasks • Selection and evaluation of infrastructure architecture standards commensurate with other stakeholders • Consult project teams to fit infrastructure architecture assignments and identify need to modify infrastructure architecture to attain project requirements14 • Identify need to change technical architecture to incorporate infrastructure needs. • Identify requirements for infrastructures and resources to support infrastructure architecture • Ensure documentation of entire architecture design and evaluation work • Develop & execute education plan for infrastructure architecture
Job specific skills	• Experience in in designing and building large IT infrastructure projects encompassing both Hardware, Virtualization and middleware layers • Candidates with Professional certifications on OS (Unix/Linux), Middleware, Storage, Load Balancer are preferred
To Apply	Interested candidates are advised to visit the Bank's website www.bankofbaroda.co.in (Career Page→ Current Opportunities section) for further details or you may follow the following link for applying for the said post: The last date of submission of the application is **24.10.2022 (23:59 hours).**
Eligibility Criteria to be met as on	01.10.2022
All other terms & conditions shall be as per advertisement dated 08.12.2021	

Position	Integration Expert
Educational Qualification	B.E./ B.Tech. in Computer Science or Information Technology
Minimum Experience	Minimum 10 years of Technical and IT experience out of which at least 5 years' experience in integration process of banking platforms.
CTC offered	Remuneration will be offered based on candidate's qualifications, experience, overall suitability, last drawn salary of the candidate and market benchmarks for the respective posts, and shall not be a limiting factor for suitable candidates.
Location of posting	The tentative place of posting is Mumbai/Hyderabad. However, the posting may be subject to change/modification depending on Bank's requirement from time to time and the selected candidate is liable for transfer/posting anywhere in India.
Nature of Engagement	Contractual Engagement will be for a period of 3 years, with periodic performance review. The term of engagement may be extended at the option of the Bank.
Age	Minimum Age – 32 years & Maximum Age – 45 years
Role & Responsibilities (indicative & not limiting)	• Collaborate on the successful integration of hardware, software and Internet resources • Strong experience in Middleware and Infrastructure management. • Assist in planning and implementing a variety of technological opportunities. • Assist in the creation, maintenance, and integration of technology plans. • Ability to lead teams to successful end results • Strategic planning and continuous improvement mindset, relevant to technology processes and systems • Assess technology skill levels of co-workers and customers.
Job specific skills	• Understanding of IT architecture like SOA and integration methodologies like ESB and APIs • Strong knowledge of development environments, middleware components, database and open source technologies. • Understanding of solutions for platform and application layers. • Strong skills in multi-tier architecture, digital technologies, API, IoT, cognitive solutions. • Must have experience in Kafka, IIB / Oracle ESB, Message queues. • Experience of API Management and integration of RESTful APIs, SOAP services, Microservices, GraphQL, etc • Strong understanding of various areas of technologies such as infrastructure development, operations, etc. • Effective communication with management, stakeholders and vendors. • Strong understanding of technology processes and systems
